PROFESSIONAL SUMMARY

DevOps Engineer with hands-on experience deploying and maintaining cloud-native infrastructure on AWS. Works with Kubernetes, Terraform, CI/CD pipelines, GitOps, Docker, monitoring, and production environments. Focused on automation, reliability, scalable deployments, and clean infrastructure workflows.

TECHNICAL SKILLS

CLOUD & INFRASTRUCTURE

AWS, EKS, EC2, S3, IAM, Lambda, DNS, cloud networking

IAC & AUTOMATION

Terraform, Pulumi, Infrastructure as Code, reusable modules

OBSERVABILITY

Grafana, Uptime Kuma, Container Insights, logging, metrics

CONTAINERS & ORCHESTRATION

Kubernetes, Docker, AWS EKS, Karpenter, CoreDNS

CI/CD & GITOPS

GitHub Actions, AWS CodePipeline, Argo CD, Git, release automation

DEVELOPMENT

HTML, CSS, JavaScript, PHP, MySQL, .NET application deployments

WORK EXPERIENCE

DevOps Engineer — Polymath Services

Aug 2025 — Present • Prishtina

- Managed and deployed 30+ containerized workloads on AWS EKS across development, staging, and production.
- Built and maintained CI/CD pipelines with GitHub Actions and AWS CodePipeline, reducing deployment time by 60%.
- Implemented GitOps workflows with Argo CD for automated, version-controlled Kubernetes deployments.
- Worked with Terraform and Pulumi to write reusable, maintainable Infrastructure as Code.
- Configured EKS add-ons, CoreDNS, Container Insights, logging, metrics, and DNS resolution services.
- Supported migration of an on-premise multi-tenant .NET/IIS application to AWS infrastructure serving 400+ tenants.
- Improved monitoring and incident visibility using Grafana and Uptime Kuma.

DevOps / Full-Stack Developer — Bytefull

Nov 2023 — Aug 2025 • Prishtina

- Built, deployed, and maintained production-ready web applications in cloud environments.
- Improved deployment workflows through automation, infrastructure management, and release best practices.
- Supported end-to-end delivery from development to cloud deployment, with focus on reliability and scalability.

CERTIFICATIONS & TRAINING

- AWS Cloud Clubs Infrastructure Camp** — hands-on AWS infrastructure training covering EC2, Lambda, S3, IAM, cloud security, troubleshooting, networking, and Infrastructure as Code principles.
- Amazon University Engagement Program** — completed the 2025 cohort; achieved 2nd place and received the Best Technical Award.
- Peer Educators Network** — web and ICT training covering HTML, CSS, JavaScript, PHP, MySQL, databases, and dynamic web applications.

EDUCATION & LANGUAGES

UP-FSHMN

BSc Computer Science

Hanze University

Exchange Student
